

## Kura Oncology to Report Third Quarter 2023 Financial Results

October 26, 2023

SAN DIEGO, Oct. 26, 2023 (GLOBE NEWSWIRE) -- Kura Oncology, Inc. (Nasdaq: KURA), a clinical-stage biopharmaceutical company committed to realizing the promise of precision medicines for the treatment of cancer, today announced that it will report third quarter 2023 financial results after the close of U.S. financial markets on Thursday, November 2, 2023. Kura's management will host a webcast and conference call at 4:30 p.m. ET / 1:30 p.m. PT that day to discuss the financial results and provide a corporate update.

The live call may be accessed by dialing (888) 886-7786 for domestic callers and (416) 764-8658 for international callers. A live webcast and archived replay of the event will be available [here](#) or online from the investor relations section of the company website at [www.kuraoncology.com](http://www.kuraoncology.com).

### About Kura Oncology

Kura Oncology is a clinical-stage biopharmaceutical company committed to realizing the promise of precision medicines for the treatment of cancer. The Company's pipeline consists of small molecule drug candidates that target cancer signaling pathways. Ziftomenib is a once-daily, oral drug candidate targeting the menin-KMT2A protein-protein interaction for the treatment of genetically defined acute myeloid leukemia (AML) patients with high unmet need. Kura is currently enrolling patients in a Phase 2 registration-directed trial of ziftomenib in NPM1-mutant relapsed or refractory AML (KOMET-001). The Company is also conducting a series of studies to evaluate ziftomenib in combination with current standards of care, beginning with venetoclax/azacitidine and standard induction cytarabine/daunorubicin chemotherapy in NPM1-mutant and KMT2A-rearranged newly diagnosed and relapsed/refractory AML (KOMET-007). Tipifarnib, a potent and selective FTI, is currently in a Phase 1/2 trial in combination with alpelisib for patients with PIK3CA-dependent head and neck squamous cell carcinoma (KURRENT-HN). Kura is also evaluating KO-2806, a next-generation FTI, in a Phase 1 dose-escalation trial as a monotherapy and in combination with other targeted therapies (FIT-001). For additional information, please visit Kura's website at [www.kuraoncology.com](http://www.kuraoncology.com) and follow us on [Twitter](#) and [LinkedIn](#).
